

# The Cubro ... advantage

## Proven track record and experience

Cubro have been providing healthcare equipment solutions to healthcare professionals for over 28 years and is recognised as one of New Zealand's leading healthcare equipment suppliers.

## Telarc SAI registered supplier

Cubro has been a Telarc certified supplier of rehabilitation, medical and healthcare equipment solutions since 1996 and is accredited with Standard ISO 9001:2008. This certification demonstrates our commitment to quality, service and customer satisfaction.

## Stringent selection and testing procedures

We want the purchase and set-up process to be as stress free as possible for you and your clients. We achieve this by a careful selection process, and stringent testing on our equipment.

## Responsive to your needs

At Cubro we listen to the recommendations of our customers. Each piece of equipment has been selected and designed in conjunction with healthcare professionals.

## Hassle free warranties

Cubro has a "hassle free" policy of resolving warranty issues promptly. All equipment is covered under a Cubro warranty policy.

## Single source of supply - saves time and money

Cubro stock a very large, comprehensive range of products covering many specialised categories. In most cases we can meet all your needs as a single source supply, saving you time and money.

## Fit, form and function

Cubro believes in the fit, form and function of a product. Does it fit the customer's requirements, does the form or specification fit with the customer's needs and does it function as to exceed the customer's expectations.

## Prompt service guarantee

A large inventory of equipment is held in our warehouses, enabling us to provide prompt delivery and unparalleled service. Daily courier services provide delivery to most areas of New Zealand overnight.

## Equipment customisation

Cubro can customise equipment to meet your needs. This is all done in-house by our own skilled engineering, electrical and upholstery team.

## Innovation and state of the art technology

Cubro is continuously looking at ways to improve and enhance both the aesthetics and the function of our equipment. A lot of the equipment we supply has state of the art technology, helping to future-proof your investment.

## Dedicated in-house service and repair team

Cubro has a dedicated, fully trained and certified in-house service and repair team providing you with quality assurance and backup.

## Spare parts

Cubro carry spare parts for all equipment that we supply. We also stock parts that are compatible with many other products in the industry.

## Risk management policies

Cubro has robust risk management policies in place to protect your investment. These cover many aspects of risk management including exchange rates, misadventure and much more.
